

# ProfitMAX

*Duroc*

**ProfitMAX** Duroc terminal boars excel in numerous areas at the same time. This makes them a complete package. We have selected them to be extreme in frame size, body length, leanness and muscle volume while also putting an emphasis on extra-fast growth, feed efficiency and STAGES™ Terminal Sire Indexing. Consider that they have an almost zero rupture rate and they sire pigs with exceptional meat quality. This will give you one of the best terminal sire lines in the industry.

The most complete terminal boar to maximize profit in your herd!
